

# OMKAR DIXIT

Aspiring Business Analyst • Requirements Documentation, Process Analysis & Data-Driven Decisions

Nanded, Maharashtra, India | [omkardixit2@gmail.com](mailto:omkardixit2@gmail.com) | +91 70301 28869 | [linkedin.com/in/omkardixit2406](https://www.linkedin.com/in/omkardixit2406) | [omkardixit24.github.io](https://omkardixit24.github.io)

## PROFESSIONAL SUMMARY

Professional with 7 years of experience across operations, client consulting, and content delivery, now transitioning into Business Analyst and Product Analyst roles through structured self-study and four applied case studies. Experienced at translating ambiguous stakeholder needs into clear requirements, process documentation, and prioritized roadmaps. Working knowledge of SQL, advanced Excel, MoSCoW/RICE prioritization, and Agile/Scrum fundamentals.

## PORTFOLIO — APPLIED BUSINESS ANALYSIS CASE STUDIES

Four self-directed, end-to-end projects demonstrating core BA/PM skills. Full write-ups: [omkardixit24.github.io](https://omkardixit24.github.io)

### 1. Competitive Product Teardown & Feature Prioritization — Blinkit

- Reverse-engineered core user flows and mapped jobs-to-be-done; ran a competitive gap analysis against 2–3 peer apps.
- Prioritized the feature backlog using RICE and MoSCoW; delivered a roadmap with documented trade-off rationale and success criteria.

### 2. 0-to-1 Product Requirements Document — Clacker-Tracker (BLE Hardware + Companion App)

- Authored a full PRD spanning firmware, hardware, and BLE mobile app layers for a connected product built from scratch.
- Defined functional and non-functional requirements, edge cases, and acceptance criteria structured for engineering hand-off.

### 3. Persona-Driven Product Strategy & Roadmap — Digito (K-12 EdTech Math Platform)

- Built user personas and learning-science-aligned feature requirements after a competitive landscape analysis.
- Delivered a phased roadmap with prioritized features, trade-off documentation, and equity-focused success metrics.

### 4. Business Process Analysis & Improvement — Content Operations Pipeline

- Mapped as-is workflows across a multi-stakeholder content pipeline; identified bottlenecks, hand-off failures, and root causes.
- Designed to-be process flows and translated recommendations into concrete operational and tooling requirements.

## CORE SKILLS

**Requirements & Documentation:** Requirements elicitation, BRD/PRD writing, user stories & acceptance criteria, as-is/to-be process mapping, gap analysis

**Analysis & Prioritization:** Root cause analysis, MoSCoW & RICE prioritization, backlog structuring, stakeholder alignment, competitive analysis

**Delivery & Tools:** Agile/Scrum fundamentals, SDLC awareness, SQL (joins, aggregation, filtering), Advanced Excel (XLOOKUP, PivotTables, SUMIFS, INDEX/MATCH), Google Sheets

## PROFESSIONAL EXPERIENCE

### Freelance Operations & Process Consultant | Remote

Mar 2024 – Sep 2024

- Gathered stakeholder requirements and converted them into structured documentation and process flows across concurrent client accounts in content and operations.
- Designed QA checkpoints and Excel-based reporting trackers that surfaced gaps earlier and reduced rework during delivery hand-offs.
- Documented current-state processes and recommended improvements aligned with client timelines and constraints.

### Digital Marketing & Operations Associate | 24 Media Films Pvt. Ltd., Pune

Sep 2023 – Mar 2024

- Owned client onboarding requirements gathering and documentation; built standardized hand-off templates adopted across teams.
- Built delivery trackers and dashboards; analyzed performance data with PivotTables, VLOOKUP, and SUMIFS to improve reporting accuracy.
- Coordinated with stakeholders to clarify scope and support smoother project execution.

### Freelance Content & Digital Strategist | Remote

Jun 2018 – Aug 2023

- Managed multi-year client accounts end-to-end under minimal oversight; translated business goals into actionable delivery plans.
- Built documentation systems and knowledge bases that shortened collaborator onboarding and improved delivery consistency.

## CONTINUED LEARNING

**Sep 2024 – Present:** Structured self-study in Agile/Scrum, SQL, BRD/PRD authoring, and MoSCoW/RICE prioritization — applied directly across the four case studies above.

## EDUCATION

**B.Sc. Computer Science** | MGM's College of Computer Science & IT, SRTM University, Nanded  
HSC (Science), 2014 • SSC, 2012 — Nanded

2018
