OBJECTIVE

Detail oriented professional with a Computer Science background and 7+ years of experience translating ambiguous stakeholder requirements into structured specifications, delivery plans, and data driven reporting. Seeking a Product Manager, Business Analyst, or Product Owner role to apply strong requirement gathering, cross functional coordination, SQL and analytical skills, and end to end ownership of delivery, to build products that solve real user and business problems.

PROFESSIONAL EXPERIENCE

Freelance Business Analyst & Operations Consultant | Independent Consultant

Mar 2024 – Sep 2024 | Remote

- Led end to end requirement gathering across concurrent client accounts, converting ambiguous stakeholder asks into structured requirement documents and delivery roadmaps.
- Converted unstructured stakeholder input into validated specifications and structured reporting dashboards, improving delivery accuracy and turnaround.
- Coordinated cross functional stakeholder communication and reporting, maintaining 100% deadline compliance across parallel workstreams.
- Built exception tracking and quality assurance checkpoints to catch requirement gaps before delivery, reducing rework.

Business Operations & Product Support Specialist | 24 Media Films Pvt. Ltd.

Sep 2023 – Mar 2024 | Pune

- Owned onboarding requirements and process flows for new clients, identifying gaps and standardizing documentation across teams.
- Built and maintained delivery trackers and status dashboards used by cross departmental teams to prioritize work and track progress.
- Served as primary liaison between client stakeholders and internal teams, translating business requirements into actionable tasks.
- Analyzed operational data using Excel (Pivot Tables, VLOOKUP, SUMIFS) to identify process bottlenecks and improve reporting accuracy.

Senior Product & Content Strategist | Independent Consultant (Freelance)

Jun 2018 – Aug 2023 | Remote

- Independently owned strategy and execution across multi year client accounts, prioritizing competing requirements with minimal oversight.
- Established version controlled documentation and centralized knowledge systems, improving retrieval and consistency across teams.
- Sustained on time delivery and data integrity across high workload, multi stakeholder projects over a 5 year span.

EDUCATION

Bachelor of Science, Computer Science

MGM's College of CS & IT (SRTM University), 2018

Higher Secondary Certificate (HSC), Science

NES Science College, Nanded, 2014

Secondary School Certificate (SSC)

Madhavrao Patil High School, Nanded, 2012

TECHNICAL & PRODUCT SKILLS

Analysis & Tools: SQL (Queries, Joins, Filtering, Aggregation), Microsoft Excel (VLOOKUP/XLOOKUP, INDEX/MATCH, PivotTables, SUMIFS, Conditional Formatting), Google Sheets

Product & BA Practices: Requirement Gathering, PRD and User Story Writing, Process Mapping, Stakeholder Management, Backlog Prioritization, Data Driven Reporting, Root Cause Analysis

Core Strengths: Cross Functional Collaboration, Analytical Thinking, Attention to Detail, End to End Ownership, Structured Problem Solving

RELEVANT PRODUCT / BA COMPETENCIES

- 7+ years translating ambiguous stakeholder requirements into structured specifications and delivery plans across cross functional teams.
- Proven ownership of end to end delivery, from requirement intake through quality assurance, across concurrent, high stakes client accounts.
- Strong foundation in data structuring, SQL querying, and analytical reporting, grounded in a Computer Science background.
- Track record of independent execution, structured documentation, and process improvement in fast paced, deadline driven environments.
